2009-2010 Foundation Grant Program

Through generous donations to the Foundation, grants for educational projects and programs are available for the 2009-2010 school year. These funds are available to teachers, students, parents, and others for use in educational endeavors that benefit students in the North Polk public schools. The Grant Committee of the Foundation will review all grant applications.

The Foundation is unable to fund applications that request compensation for District employees. Multi-year requests will be considered for current-year funding only, with no guarantee for future years funding. Priority will be given to projects that align with the Foundation mission, enhance education for students, and affect an appropriate number of students.

The North Polk Community School District foundation will not discriminate in its activities on the basis of race, color, national origin, religion, sex, disability, or marital status in compliance with the District Policies.

Thank you for your interest in expanding educational opportunities for children.
